## HUBER Solutions for Water Storage

For many decades we have supplied stainless steel equipment for water storage tanks, whereby security and hygiene are the most important objectives:

- Ventilation (e.g. [louvers](#), [airfilters](#))
- Flow Control (In-, out- and overflow devices)
- [Security Doors](#)
- [Pressure-tight Doors](#)
- [Windows and View Ports](#)
- [Manhole Covers](#)
- Guardrails, Stairways, Ladders, Platforms
- Pipe Fittings (e.g. spacers, adapters and compensators)
- Wall Bushings

Our stainless steel products for water tanks are known for their quality, functionality, reliability and durability.

All products are made of high-quality stainless steel and passivated in our own pickling bath to guarantee optimal finishing and surface protection. HUBER stainless steel products are very competitive thanks to volume production.

## Case Studies

- Refurbishment of the central pressure booster station at Gerauer Land waterworks
- HUBER's Stainless Steel Pressure Tight Submarine Doors Selected For New Reservoir
- Old installations – a ticking bomb?
- Good reasons to use air filters in water reservoirs
- Burglar resistance – efficiency on a new level
- Full range of state-of-the-art products for elevated reservoirs
- Make it hard for burglars ... use burglary-resistant HUBER manhole covers!
- First HUBER TT7-30 pressure doors installed at Echthausen waterworks
- New Pressure Door model to withstand even higher pressures!
- Minimised condensation in water chambers through forced ventilation
- HUBER RC3 safety doors meet any requirements
- Eight RC3 safety doors supplied to Leibnitzerfeld Wasserversorgung in Austria
- Stadtwerke Bielefeld continue to invest into HUBER products for the refurbishment of water reservoirs
- Water reservoir Talstraße renovated
- New drinking water reservoir for the town of Senden
- Reconstruction of Manholes
- Renewal of Wells at Baltrum Water Works
